POLYCORE Flexible Wall Panel is an innovative wall panel that combines flexibility and elegance in modern interior design. Made from high-density polystyrene (HDPS), this ultra-light panel easily adapts to irregular surfaces such as columns, arches, and curved walls. Its 3D textured structure adds depth and sophistication to spaces, while its fully waterproof material makes it perfect for bathrooms and spa zones. Durable, hygienic, and long-lasting, it offers a contemporary solution for both residential and commercial environments.
